

Cllr Daws
November Report
12th November 2020

- 1) reporting that the child of the Greater Exeter Strategic Plan is being reborn and debated in January at full council. There should be a draft to consider before then. This Plan deals with housing number allocation and sites.
- 2) regarding COVID support, TDC are holding funds for hardship requirement should there be any desperate cases in the Parish. There are also a raft of support packages on the TDC website.
- 3)also as you know, the feedback request has also been distributed regarding the response to lockdown one, which is hopefully self explanatory.
